Petition

To the Legislative Assembly of Ontario:

Whereas the Town of Milton is the fastest growing community in Canada with a population that is expected to surpass 100,000 by 2014, and;

Whereas the Milton District Hospital is designed to serve a population of 30,000, and;

Whereas young families, seniors, and all residents of Milton are currently unable to access quick and reliable healthcare, and;

Whereas the excellent doctors and nurses at Milton District Hospital are constrained by unacceptable conditions and a lack of resources;

WE THE UNDERSIGNED petition the Government of Ontario to immediately approve and initiate the process to expand Milton District Hospital and to provide adequate interim measures to prevent further suffering for the people of Milton.
